National Westminster Bank 42 High Street Sheffield S1 1QG

The Trustee is pleased to present the annual report and financial statements of Reuters Pension Fund ("the Fund") for the year ended 31 December 2022.

The Fund is an occupational Defined Benefit Scheme and was established under the provisions of a Trust Deed dated 13 December 1893. The Fund was closed to new members from 1 April 1999.

Until 5 April 2016, members were contracted out of the State Second Pension (S2P) under a certificate issued by the HM Revenue & Customs National Insurance Contributions office.

The Fund is registered under the Finance Act 2004. Prior to the introduction of this Act, the Fund was an "exempt approved scheme" under the terms of the Income and Corporation Taxes Act 1988.

# **Fund Management**

The Fund is administered by the Managing Committee, as Managing Trustee, for the benefit of the members and their dependants in accordance with the Fund's Rules.

The Managing Committee is made up of:

- (a) four persons appointed (and removable) by the Sponsoring Employer of whom one serves as Chair;
- (b) three persons who can be contributory members, deferred pensioners or pensioners elected on a rotational basis by contributory members, deferred pensioners and pensioners for a term of six years. There ceased to be contributory members when the Fund closed to accrual on the 31 August 2022.

There is also a Trustee of the Fund, namely Reuters Pension Fund Limited, which has a number of specific responsibilities including investments. The Managing Committee appoints and removes the Directors of the Trustee Company who must be members of the Managing Committee. Currently all members of the Managing Committee are Directors of the Trustee Company. The Managing Committee and the Trustee Company are jointly referred to as 'the Trustees' in this report.

The full Trustee Board met 4 times during the year to discuss the strategy and ongoing management of the Fund. The Investment sub-committee (ISC) and the Operations sub-committee (OSC) also met on a regular basis to discuss their designated areas. The sub-committees have delegated powers from the Trustee. Members of the OSC are currently Martin Vickery, who chairs the sub-committee, Rachel Croft, Mark Harries and Peter Marsden.

#### **Governance and Risk Management**

The Trustee has prepared a forward-looking business plan, setting out what issues should be considered and when. This is reviewed regularly. During the year, the Trustees addressed, amongst others, the following issues:

#### (i) Risk Management

The Trustees are responsible for risk management of the Fund and for the underlying controls mitigating identified risks, which are included in the Risk Register. The Risk Register review is in progress as part of a general governance review in response to TPR's forthcoming general code of practice. The risk management process is designed to manage, rather than to eliminate, the risk of error, loss or failure to comply with regulatory requirements. During the year the Trustee reviewed risks relating to cyber security of their advisers' and service providers' systems and processes and actions were taken to strengthen existing processes where necessary.

#### (ii) Changes to the Fund's Rules

The scheme closed to future accrual on the 31 August 2022 and a deed and resolution to document this change was signed on the 21 September 2022. Further details are shown on page 10.

#### (iii) Trustee Knowledge and Understanding

During the year, the Trustee received training from their advisers on current issues in order to maintain the level of knowledge and understanding required to perform the role of Fund's Trustee. Individual Trustee Directors also attend external training sessions and conferences on investment and current pension issues.

#### **GMP** equalisation

In October 2018, the High Court ruled that pension schemes are required to equalise benefits between men and women for the effect of Guaranteed Minimum Pensions (GMP) which were accrued on or after 17 May 1990.

The High Court has since determined, in November 2020, that the trustee owed a duty to a transferring member to make a transfer payment which reflected the member's right to equalised benefits. Where the initial transfer payment was inadequate on this basis the trustee is under an obligation to make a top-up payment to the receiving scheme on behalf of the transferred member.

The Trustee is reviewing, with their advisers and the Sponsoring Employer, the implication of these rulings in the context of the Fund rules and the value of any liability. On completion of the review, the Trustee will put together a plan for correcting past benefits as well as inequalities in benefits coming into payment.

#### Significant events

#### **Russian Invasion of Ukraine**

The February 2022 Russian invasion of Ukraine and the subsequent implementation of unprecedented economic sanctions against Russia and Russian allies was a catalyst for rising energy prices. This, in turn, was a main driver of inflationary pressure across the developed world with UK CPI (Consumer Price Index) peaking at 11.1% p.a. in October 2022 (Source: ONS). The Fund's exposure to Russian markets and securities was negligible and the Trustee did not identify any material risks to the Fund or the Employer covenant arising from the conflict in Ukraine. However, the Trustee will continue to closely monitor the situation.

#### Inflation

The UK and other major economies experienced significant inflation over 2022, largely because of the Russian invasion of Ukraine, which impacted energy prices and supply-chains. The Trustee's Liability Driven Investment ("LDI") strategy ensures that any rise or fall in the Fund's liabilities due to long-term inflation expectations is hedged, i.e. broadly matched by a commensurate rise or fall in the Fund's assets. Inflation risk to the Fund is therefore immaterial.

#### The UK Gilt Crisis

During September and October of 2022, there was a period of extreme volatility in the UK markets under the new governance of Prime Minister Liz Truss and Chancellor, Kwasi Kwarteng. Following the 23rd September "Mini Budget," UK government bond ("gilt") prices fell sharply as markets reacted negatively to the additional borrowing needed to finance the new Conservative government's growth-oriented policies and unfunded tax cuts. The scale and speed of the fall in gilt prices resulted in many pension schemes that employed LDI struggling to meet collateral calls, resulting in forced sales of other assets and a forced reduction of hedging positions. The Trustee, working with the London Stock Exchange Group, took swift action to meet all collateral requirements by closely monitoring the position and selling down some return-seeking assets. The Trustee continues to closely monitor collateral availability to ensure the Fund would be able to withstand another period of gilt volatility.

# Trustees' Report

# Fund Membership

# Details of the current membership of the Fund are given below:

	2022	2021
Active members	-	126
Deferred members	4,058	4,135
Pensioners	2,830	2,699
	6,888	6,960
Active Members		
Active members at start of year	126	144
Adjustment to the opening balance		(6)
	126	138
	120	130
Less: Retirements	(4)	(3)
Leavers – deferred benefits	(122)	(9)
Active members at end of year		126
Deferred Members		
Deferred members at start of year	4,135	4,301
Adjustment to the opening balance	-	1
	4,135	4,302
Plus: New deferred members	122	9
	4,257	4,311
Less: Retirements	(155)	(138)
Deaths	(9)	(5)
Commuted	(3)	(3)
Transfers out	(32)	(2)
	(32)	(01)
Deferred members at end of year	4,058	4,135

	2022	2021
Pensioners		
Pensioners at the start of year	2,699	2,597
Adjustment to the opening balance	2	1
	2,701	2,598
Plus: New pensioners	159	141
New spouses	33	23
New dependants	-	1
Reinstated from suspended	1	2
	2,894	2,765
Less: Deaths	(59)	(60)
Child pensions ceasing	(2)	(4)
Suspended	(3)	(2)
Pensioners at end of year	2,830	2,699

#### Pensioners

Included in the pensioner figure above are 402 (2021: 416) pensions covering spouses and dependants.

Included in the pensioner figure above are 81 (2021: 83) pensions covered by receipts from annuity providers.

Included in the pensioner figure above are 1,858 (2021: 1,882) pensions covered by the buy-in insurance policy provided by Canada Life.

#### **Pension Increases**

Pensions in payment received the following increases during the year in line with requirements under legislation and the Scheme's Rules:

- Pensions earned before 6 April 1997 received a discretionary increase of 2.50% (2021: 1.10%) with effect from 1 January 2022. Discretionary increases were awarded by the Employer and Trustee for 2022 and will continue to be granted until 1 January 2024.
- Pensions earned between 6 April 1997 and 5 April 2005 received a statutory increase of 4.90% (2021: 1.1%) with effect from 1 January 2022.
- Pensions earned after 6 April 2005 received a statutory increase of 2.50% (2021: 1.10%) with effect from 1 January 2022.
- Post 88 GMP pensions in payment received an increase of 3.00% (2021: 0.50%) with effect from 1 January 2022.

Pensioners with individual increase guarantees received increases in line with their specific arrangements.

#### **Transfer Values**

Transfer values paid during the year were calculated and verified in accordance with the appropriate regulations under the provision of the Pension Schemes Act 1993 and guidelines issued by the Institute of Actuaries. No transfer values were paid during the year which were less than the full value of the member's preserved benefits. No transfer values paid were reduced below the level calculated using tables supplied by the Fund Actuary.

An allowance for annual pension increases until 1 January 2024 to pre 1997 pensions in payment in excess of GMPs is included in the calculation of transfer values, in line with the agreement by the Trustee and the Company.

#### **Financial Development of the Fund**

The financial statements have been prepared and audited in accordance with regulations made under section 41 (1) and (6) of the Pensions Act 1995.

Prior to cessation of future accrual on 31 August 2022, the member (employee) contribution rates (dependent on the accrual rate chosen by member) were either 6% or 9% of pensionable salary. The employer contribution rates payable were either 31.6% or 41.2% of the member's pensionable salary depending on the accrual rate chosen by the member.

For members who elected to join the Pension Adjustment, member contributions reduced to nil with effect from June 2005 and the employer has met the cost of the corresponding member contributions.

The Summary of Contributions is set out on page 29.

The Fund met all expenses apart from the cost of externally insuring the lump sum death in service benefit provided by the Fund, which was met by the Sponsoring Employer. The Sponsoring Employer provided lump sum contributions towards expenses when required and also contributed to the Fund the National Insurance savings it made through the Pension Adjustment.

	2022 £'000
Contributions and other receipts	6,148
Benefits paid and other expenses	(70,908)
Net withdrawals from dealings with members	(64,760)
Net returns on investments	(1,027,257)
Opening net assets of the fund	2,801,729
Closing net assets of the fund	1,709,712

#### **Closure to Future Accrual**

On 7 December 2021, the sponsoring employer, Refinitiv Limited, commenced a consultation with the active members to close the Fund to future accrual. The consultation ended in February 2022 and all members agreed to a variation to their employment resulting in them ceasing pension accrual in the Fund from 31 August 2022. These members joined the London Stock Exchange Group Pension Plan, a defined contribution plan, from 1 September 2022.

#### **Additional Voluntary Contributions**

Up to 31 March 2005, the Rules of the Fund permitted members to pay Additional Voluntary Contributions (AVCs) into the Fund and up until 5 April 2006 to arrangements with Prudential and/or Equitable Life (which were transferred to Utmost Life & Pensions on 1 January 2020), in order to augment their pensions or lump sum death benefits. After this date, the Refinitiv Retirement Plan (formerly Thomson Reuters UK Retirement Plan) ('RRP Plan') was opened as an AVC vehicle for active members of the Fund and all new AVCs were invested in the RRP Plan. Prior to the year end, Refinitiv Limited, after discussions with the RRP Trustee and consultation with active members, determined that all future contributions would be made to the Legal & General WorkSave Mastertrust, with effect from 1 April 2022. This included any AVCs paid to the RRP Plan by Reuters Pension Fund (RPF) members.

The RRP Trustee and its sponsoring employer also agreed that a bulk transfer of all cumulative funds under the RRP Plan as of 31 March 2022, will be made to the same master trust arrangement. This transfer completed at the end of April 2022 and the RRP Trustee has commenced the wind-up of the RRP Plan.

AVCs paid on a money purchase basis prior to 6 April 2006 are held with Prudential or Utmost whilst other AVCs are retained in the Fund to secure a pension calculated as an extra percentage of pensionable salary on retirement.

#### **Actuarial Valuation**

As required by Financial Reporting Standard 102, "The Financial Reporting Standard applicable in the United Kingdom and the Republic of Ireland" (FRS 102), the financial statements do not include liabilities in respect of promised retirement benefits.

A full actuarial valuation of the Fund was carried out by the Fund Actuary as at 31 December 2019 and disclosed that assets exceeded liabilities at that date, resulting in a surplus of £39 million. This was equivalent to a funding level of 102%.

A summary of the results of the full actuarial valuation is included in the Actuary's Report on pages 26 and 27 which forms an integral part hereof. In addition, the Actuary's Certificates in respect of the adequacy of contributions payable towards the Fund, agreed as part of the valuation, is replicated on page 28 of this Report. The next formal actuarial valuation will be as at 31 December 2022.

## **Investment Matters**

The investments referred to in this report include the Trustees' bank account and do not include AVC investments or other Insured Assets.

#### Investment sub-committee (ISC)

The ISC of the Trustee Board comprises Greg Meekings, Sue Clark, Geoffrey Sanderson and Ava Lau (Company Representative). Greg Meekings chairs the ISC. Please note that Greg Meekings retired from the Trustee Board and ISC on 31 March 2023. Catherine Redmond assumed the position of Chair of Trustees and of the ISC.

#### Asset Allocation

The total value of the Fund's investments as at 31 December 2022 was approximately £1,284.3 million, including assets held in the Trustees' bank account but excluding the assets invested in a buy-in insurance policy with Canada Life. The distribution of the Fund's assets as at 31 December 2022 was as follows:

	Asset Classes	Market Value (£m)	Fund Distribution (%)
Bonds/Matching Assets	Liability Driven Investment	754.8	58.8%
	Corporate Bonds	279.6	21.8%
Growth Assets	Multi Class Credit	54.8	4.3%
	Diversified Risk Premia	118.7	9.2%
	Substainable Equities	8.6	0.7%
	Private Equity	20.1	1.6%
	Insurance-Linked Securities	41.9	3.3%
	Property	0.1	0.0%
Cash	Cash (Trustees' bank account)	5.8	0.5%
Total Fund		1284.3	100%

Source: Bank of New York Mellon. Figures may not total due to rounding and the exclusion of small residual holdings Excludes buy-in insurance policy with Canada Life.

As at 31 December 2022, total values for AVCs and insurance policies were £2.8m and £427.8m, respectively.

#### **Statement of Investment Principles**

The Trustee works closely with its advisers to understand how ESG factors influence the decisions that it makes. The Trustee considers the Scheme's obligations in respect of Task Force on Climate Related Financial Disclosures ("TCFD") requirements (a project for which they have established a Working Party). The Trustees 2023 are required to produce а TCFD report in which can be found on https://www.reuterspensionfund.co.uk/assets/tcfd/rpf--tcfd\_report\_2022.pdf. The report provides information to scheme members (as investors) information about what the Trustees are doing to mitigate the financial risks of climate change.

In accordance with Section 35 of the Pensions Act 1995, the Trustee has prepared a Statement of Investment Principles (SIP).

The SIP summarises how the Trustee:

- set the investment policy and choose the most suitable types of investments for the Fund;
- delegate buying and selling investments to the Fund's investment managers; and
- monitor the performance of the Fund's investments.

No changes were made to the SIP over the period covered in the document.

#### **Investment Strategy and Manager Structure**

The investment strategy, which is set out in the Statement of Investment Principles, consists of a single bulk annuity contract, which covers the entirety of the Scheme's liabilities. The purpose of this annuity is to move in line with liabilities so that all pensioner payments are met. There is also a small cash reserve to cover expenses and other ad hoc payments.

The names of the managers who managed the Fund's investments during the year are listed on pages 2 to 5. The Trustee has delegated the day-to-day management of investments to their appointed fund managers. A written agreement between the Trustee and each manager sets out the terms on which the manager will act.

Between March and July 2022, the Fund undertook rebalancing from the two Diversified Risk Premia allocations: Bridgewater and AQR, due to the allocations having become overweight within the portfolio. Proceeds from two partial sales were reinvested into the LDI portfolio.

Between September 2022 and January 2023, the Fund undertook extensive collateral rebalancing in response to the UK mini-budget crisis and resultant gilt market volatility. This entailed disinvestments from the following mandates: Impax Global Opportunities Fund (£96m), TwentyFour Dynamic Bond Fund (£96m), LGIM Buy and Maintain Credit (£165m), AQR Diversified Risk Premia (£104m), Stone Harbor Emerging Markets Debt Fund (£56m), CQS Multi-Class Credit Fund (£45m), and Bridgewater Optimal Diversified Risk Premia Fund (£40m). The proceeds from these disinvestments were reinvested into the BlackRock LDI Portfolio to bolster the Fund's collateral reserves.

The Nephila mandate is presently in wind-down and invested funds are being returned to RPF in tranches. It is expected that this process will be complete by April 2024.

#### **Reuters Pension Fund**

# Trustees' Report

As at 31 December 2022, the Fund assets were invested with managers as follows:

		Weight
	£m	(%)
	523.73	40.96%

#### **Investment Performance**

Investment performance for years ended 31 December 2022 is set out below. Performance is shown net of investment manager fees and includes the effects of derivative swap hedging.

Years ended 31 December 2022	Fund (%)	Benchmark (%)
1 year	-40.8%	-43.1%
3 year <sup>1</sup>	-11.3%	-12.6%
5 year <sup>1</sup>	-5.1%	-5.6%
10 year <sup>1</sup>	4.0%	3.3%

<sup>1</sup>Annualised. Source: Bank of New York Mellon

#### **Investment Manager Remuneration**

The Trustee has entered into an agreement with each investment manager whereby its fee is based on the value of assets under its management with provision for additional performance related fees in some actively managed mandates.

#### Custody

The Fund's custodian is the Bank of New York Mellon. The custodian is responsible for the safe keeping of directly held securities and cash of the Fund. In addition, the custodian regularly reconciles the assets in its care with each of the investment managers and deals with other issues including dividends and coupon payments, tax reclaims and corporate actions.

The Trustee is ultimately responsible for ensuring that the Fund's assets continue to be held securely and they review the custody arrangements from time to time.

#### Marketability of Investments

There are no restrictions to the Fund selling the swaps/derivatives contracts, but the price would depend on the prevailing market conditions which may not be favourable to the Fund.

All liquid funds and open-ended funds with quarterly redemption options previously held in CBRE's European Property mandate have been exited. All remaining funds within the portfolio are currently in run-off.

Redemptions from the Bridgewater fund are subject to a three-month notice period. After three months, investors can expect to receive redemption proceeds up to one third of their total investment. For redemptions greater than one third of the total account value, up to another one third of the investment would be paid after six months, with any remainder paid after nine months. The fund has the ability to accelerate these payments. In this case, even a full redemption could be paid out in sooner than nine months.

The CQS mandate may be redeemed monthly with one month's notice required.

The TwentyFour mandate can be redeemed on any trading day with no restrictions.

In relation to the private equity mandates, whilst there are no restrictions such as lock in periods or gate provisions as such, the private equity investments with Abbott Capital and Morgan Stanley are not in realisable marketable securities. There is seldom a liquid market for the underlying securities or funds, hence the only option would be to sell these investments in the secondary private equity market, which could be punitive for the Fund. The ability to sell these investments will depend on factors such as market conditions at the time of any sale.

The AQR mandate can be redeemed on any trading day if the instruction is received no later than 17:00 (CET) 1 business day prior to the trading day. Payment of the relevant proceeds will be made as soon as reasonably practicable after the relevant dealing day and normally within 10 business days.

The LGIM mandate can be redeemed on any trading day. The settlement period is typically 7 business days. It should be noted that LGIM would be a price taker in this situation and that a longer disposal period would be advisable to minimise transaction costs. Under normal market conditions, the LGIM mandate can expect redemption of c.99% of funds within 30 days of instruction. Under stressed market conditions, when market liquidity severely deteriorates, redemptions would be expected to take longer.

The Nephila mandate is presently in wind-down and invested funds are being returned to RPF in tranches. It is expected that this process will be complete by April 2024.

The Impax mandate can be redeemed on any trading day if the redemption instruction is received no later than 17:00 (Dublin Time) on the relevant redemption date. The settlement period is 3 business days.

Redemption of the Securis investment was mandatory on the 31 December 2018. The small residual holding is to be returned to RPF over time.

#### Derivative Policy

In addition to government bonds, the LDI manager uses interest rate and inflation derivatives for liability matching purposes. The LDI mandate is passively managed against a liability benchmark designed to represent the Fund's liability cashflows.

The Fund is invested in overseas assets to ensure the portfolio is adequately diversified and to widen the opportunity set for actively managed investment strategies. The Trustee has implemented a currency hedging programme (using currency forward contracts) to reduce the impact of exchange rate fluctuations, which are considered an unrewarded risk over the long term.

Some of the active investment managers that are employed by the Fund employ other derivative instruments (such as futures and options) to facilitate efficient portfolio management; allowing short-term, low-cost exposure to certain markets.

#### **Employer-related investments**

There were no directly or indirectly held employer-related investments at the year end (2021: none).

# **Implementation Statement**

#### Introduction

Under regulatory requirements in force, the Trustee is required to produce an annual Implementation Statement (the "Statement") setting out how voting and engagement policies in the Statement of Investment Principles (the "SIP") have been implemented. The Statement also includes a brief summary of updates to the SIP over the reporting period.

This Statement has been prepared by the Trustee of the Reuters Pension Fund, covering the period 1 January 2022 to 31 December 2022.

This Statement has been produced in accordance with the Occupational and Personal Pension Schemes (Disclosure of Information) Regulations 2013, the Pension Protection Fund (Pensionable Service) and Occupational Pension Schemes (Investment and Disclosure) (Amendment and Modification) Regulations 2018 and the Occupational Pension Schemes (Investment and Disclosure) (Amendment) Regulations 2019 as amended, and the guidance published by the Pensions Regulator.

The Statement looks to set out how the Trustee's policy on stewardship and engagement has been implemented during the reporting period. Where relevant, the Statement describes the areas of the portfolio where stewardship and engagement are most likely to be financially material. Disclosed is also the Trustee's opinion on the outcomes of voting and engagement activity for managers that hold listed equities, where stewardship and engagement are most relevant within the portfolio.

Overall, the Trustee is comfortable that the voting and engagement policies set out in the SIP have been properly adhered to over the period.

Changes to the SIP over the period

There were no changes to the SIP during the period covered by this Implementation Statement.

Stewardship, engagement and voting behaviour

Direct engagement with underlying companies (as well as other relevant persons) of which the Trustee owns shares and debt is carried out by the Fund's investment managers. The Trustee's ability to influence investment managers' stewardship activities will depend on the nature of the investments held.

The majority of the Scheme's non-LDI assets are invested in pooled funds where the Trustee holds units in a fund rather than having any direct ownership rights over the underlying assets. Accordingly, the Trustee's policy is to delegate responsibility for engagement, which includes the exercising of rights (including voting rights) attached to investments, to the relevant investment managers. The Trustee expects all of its investment managers to practise good stewardship and seeks to choose managers that align with its beliefs regarding this. When selecting new managers, the Trustee's Investment Adviser assesses the ability of each investment manager to engage with underlying companies to promote their long-term success. Additionally, if a manager's approach is deemed to be inadequate, the Trustee will engage with the investment manager to better align it with the Trustee's policy.

Being cognisant of the DWP's updated guidance emphasising the need for asset owners to be more "active" in their approach to stewardship, the Trustee has begun reviewing the above policy with a view to bringing it more in-line with the new guidance.

The Trustee intends to review this policy in 2023 and will share an updated stewardship policy in the next Implementation Statement.

Stewardship and engagement (including the use of voting rights) is most likely to be financially material in the sections of the portfolio where physical equities are held (Impax Global Equity Opportunities, Bridgewater Optimal II, and AQR Diversified Risk Premia). For the relevant managers that invest in physical equity, further details and an overview of votes cast during the year are provided in the Appendix. Engagement is also considered to be of importance for the Fund's other investment managers, though data to evidence their approach is more difficult to obtain.

The Trustee is comfortable that the voting and engagement policies have all been adequately followed over the reporting period, noting a number of recent changes to regulations in this area and that disclosures are likely to improve over time.

#### Appendix – Voting disclosure tables

Below is the voting activity over the period for the Fund's asset managers which held listed equities over the period. Where significant votes have been identified by managers, a sample of votes have been selected to ensure that the Statement remains concise; further examples can be provided upon request. The Trustee is comfortable with these details, and will continue to disclose this information in the next iteration of the Statement.

#### Impax Global Equity Opportunities

Key Voting Statistics (Jan 2022 – Dec 2022)	Number
Number of holdings at period end	41
Value of Trustee's Assets	£8.6m
Number of meetings eligible to vote during the period	41
Number of resolutions eligible to vote during the period	619
% of resolutions voted	100.0%
% of resolutions voted with management	90.5%
% of resolutions voted against management	8.7%
% of resolutions abstained	0.8%
% of meetings with at least one vote against management	75.6%
% of resolutions where manager voted contrary to recommendation of proxy adviser	6.8%
Any use of proxy voting services during the period	Impax has engaged Glass, Lewis & Co. ("Glass Lewis") to facilitate voting execution, record keeping, and to help inform its analysis of relevant proxy issues and proxy votes. Ultimately Impax makes its own voting decisions, based on its ESG and voting policies.

	Vote 1	Vote 2	Vote 3	Vote 4
Company name	Linde Plc	Ashtead Group Plc	EcoLab	Keyence Corporation
Date of vote	Not specified	Not specified	Not specified	Not specified
Approximate size of % holding as at the date of the vote	3.7%	1.0%	0.0%	2.4%
Summary of the resolution	Remuneration Report	Elect Brendan Horgan	Elect John J. Zillmer	Elect Yu Nakata
Impax's vote	Against	Against	Against	Against
Rationale	Pay and performance misalignment	CEO sitting on the nominating committee	Director is a CEO and serves on two or more public boards	Multiple issues: lack of key board committee, we vote against the Chairman when CEO and Chair are held by the same person and a lead independent director has not been appointed

	Vote 5	Vote 6	Vote 7	Vote 8	Vote 9
Company name	Evotec SE	IQVIA Holdings Inc	Visa Inc.	Kubota Corporation	Linde Plc
Date of vote	Not specified	Not specified	Not specified	Not specified	Not specified
Approximate size of % holding as at the date of the vote	1.8%	3.8%	2.1%	2.5%	3.7%
Summary of the resolution	Remuneration Report	Advisory Vote on Executive Compensation	Elect Lloyd A. Carney	Elect Toshikazu Fukuyama	Elect Edward G. Galante
Impax's vote	Against	Against	Against	Against	Against

	Vote 5	Vote 6	Vote 7	Vote 8	Vote 9
Rationale	Company had very significant votes against management compensation in 2021. The company has since made some improvements to comp structures, but high, new discretionary management payments took place, as well as LTI vesting below median and the LTI still consisting of multiple short performance periods.	Relative industry pay and performance disconnect remains and internal pay inequity. Weak STI target disclosures.	Overboarded: Director is a CEO and serves on two or more public boards.	The Board of Statutory Auditors is not majority independent.	Vote against nominating or governance committee members when there are less than three women on the board of directors, unless more than 30% of the directors are women.

#### **AQR Diversified Risk Premia**

Key Voting Statistics (Jan 2022 – Dec 2022)	Number
Number of holdings at period end	1953
Value of Trustee's Assets	£11.5m
Number of meetings eligible to vote during the period	734
Number of resolutions eligible to vote during the period	8,802
% of resolutions voted	99.2%
% of resolutions voted with management	91.6%
% of resolutions voted against management	8.4%
% of resolutions abstained	0.0%
% of meetings with at least one vote against management	34.0%
% of resolutions where manager voted contrary to recommendation of proxy adviser	1.7%
Any use of proxy voting services during the period	AQR utilises Institutional Shareholder Services' Sustainable proxy voting policy for all of their commingled funds and for their default vote-handling program, but they also leverage internal proprietary research on proxy issues related to significant corporate actions and in making individual voting decisions. AQR has also retained Glass Lewis for proxy voting research and recommendations.

Please note – AQR does not currently differentiate between significant or non-significant votes. While AQR does not categorize
votes (and generally vote all proxies), AQR's portfolio companies may request reactive engagement on certain votes based on their
assessment of significance. AQR are working to implement a policy for defining significant votes and expect to be able to report on
this in the future.

### Bridgewater Optimal II

Key Voting Statistics (Jan 2022 – Dec 2022)	Number
Number of holdings at period end	947
Value of Trustee's Assets	£107.1m
Number of meetings eligible to vote during the period	2,051
Number of resolutions eligible to vote during the period	19,438
% of resolutions voted	99.9%
% of resolutions voted with management	87.2%
% of resolutions voted against management	12.6%
% of resolutions abstained	0.7%
% of meetings with at least one vote against management	41.8%
% of resolutions where manager voted contrary to recommendation of proxy adviser?	0.6%
Any use of proxy voting services during the period?	Bridgewater has engaged Glass, Lewis & Co. ("Glass Lewis") to vote proxies on behalf of their clients. Bridgewater generally subscribes to the proxy voting policy adopted by Glass Lewis but reserves the right to direct Glass Lewis to vote in a manner that is contrary to such policy where appropriate, or as specifically directed by a client.

Please note – Bridgewater has not adopted a policy for identifying "significant votes" as their view is that any particular voting matter's
outcome is considered as inconsequential in the context of the overall portfolio. As a global macro investor, any one security is likely to
represent a small share of the portfolio and the ownership share in each company is quite small.

# **Other Matters**

The purpose of this section is to provide information, voluntarily by the Trustee.

MoneyHelper

The Money and Pensions Service (MaPS) was created in 2019 as a single body to bring together the services previously delivered by The Pensions Advisory Service (TPAS), the Money Advice Service and Pension Wise, providing information to the public on matters relating to workplace and personal pensions. With effect from 30 June 2021, MaPS has been re-branded as MoneyHelper but still offers all the same services. Money and Pensions Service, 120 Holborn, London, EC1N 1TD.

Telephone: 0800 011 3797

Email: <a href="mailto:pension.enquiries@moneyhelper.org.uk">pension.enquiries@moneyhelper.org.uk</a>

Web: https://www.moneyhelper.org.uk

#### **Pensions Ombudsman**

The Pensions Ombudsman will assist members and beneficiaries of the Fund in connection with difficulties which they have failed to resolve with the Trustee or Administrator of the Trust and may investigate and determine any complaint or dispute of fact or law in relation to an occupational pension scheme. The Pensions Ombudsman may be contacted at: 1st Floor, 10 South Colonnade, Canary Wharf, London, E14 4PU

Telephone: 0800 917 4487

Early resolution email: helpline@pensions-ombudsman.org.uk

Email: enquiries@pensions-ombudsman.org.uk

#### **Pension Tracing Service**

A register is maintained to help current or former members to trace their pension rights. The Fund is registered and relevant details have been given to the Regulator who can be contacted at: Pensions Tracing Service, The Pension Service 9, Mail Handling Site A, Wolverhampton, WV98 1LU

Telephone: 0800 731 0193

Web: https://www.gov.uk/find-lost-pension

#### The Pensions Regulator

The Pensions Regulator is able to intervene in the running of schemes where trustees, employers or professional advisors have failed in their duties. The contact details are: The Pensions Regulator, Telecom House, 125-135 Preston Road, Brighton, BN1 6AF.

Telephone: 0345 600 7060

Web: www.thepensionsregulator.gov.uk

Email: customersupport@tpr.gov.uk

# Statement of Trustee's responsibilities

The Trustee's responsibilities in respect of the financial statements

The Trustee's responsibilities in respect of the financial statements

The financial statements, which are prepared in accordance with United Kingdom Generally Accepted Accounting Practice, including the Financial Reporting Standard applicable in the UK and Republic of Ireland ("FRS 102"), are the responsibility of the trustee. Pension scheme regulations require, and the Trustee is responsible for ensuring, that those financial statements:

- show a true and fair view of the financial transactions of the fund during the fund year and of the amount and disposition at the end of the fund year of its assets and liabilities, other than liabilities to pay pensions and benefits after the end of the fund year; and
- contain the information specified in Regulation 3A of the Occupational Pension Schemes (Requirement to obtain Audited Accounts and a Statement from the Auditor) Regulations 1996, including making a statement whether the financial statements have been prepared in accordance with the relevant financial reporting framework applicable to occupational pension schemes.

In discharging these responsibilities, the Trustee is responsible for selecting suitable accounting policies, to be applied consistently, making any estimates and judgements on a prudent and reasonable basis, and for ensuring that the financial statements are prepared on a going concern basis unless it is inappropriate to presume that the fund will continue as a going concern.

The Trustee is also responsible for making available certain other information about the fund in the form of an annual report.

The Trustee has a general responsibility for ensuring that accounting records are kept and for taking such steps as are reasonably open to it to safeguard the assets of the fund and to prevent and detect fraud and other irregularities, including the maintenance of an appropriate system of internal control.

The Trustee is also responsible for the maintenance and integrity of the Reuters Pension Fund website. Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

The Trustee's responsibilities in respect of contributions

The Trustee is responsible under pensions legislation for preparing, and from time to time reviewing and if necessary revising, a schedule of contributions showing the rates of contributions payable to the fund by or on behalf of employers and the active members of the fund and the dates on or before which such contributions are to be paid.

The Trustee is also responsible for keeping records in respect of contributions received in respect of any active member of the fund and for adopting risk-based processes to monitor whether contributions that fall due to be paid are paid into the fund in accordance with the schedule of contributions.

Where breaches of the schedule occur, the Trustee is required by the Pensions Acts 1995 and 2004 to consider making reports to the Pensions Regulator and to members.

# Statement of Trustee's responsibilities

**Basis of preparation** 

The following wording is normally included as note 1 to the financial statements

Basis of preparation of the financial statements

The individual financial statements of Reuters Pension Fund have been prepared in accordance with the Occupational Pension Schemes (Requirement to obtain Audited Accounts and a Statement from the Auditor) Regulations 1996, Financial Reporting Standard (FRS) 102 - The Financial Reporting Standard applicable in the UK and Republic of Ireland issued by the Financial Reporting Council ("FRS 102") and the guidance set out in the Statement of Recommended Practice "Financial Reports of Pension Schemes" (revised June 2018) ("the SORP").

# Contact for Further Information

Any enquiries or complaints about the Fund, including requests from individuals for information about their benefits or Fund documentation, should be sent to:

# **Report on Actuarial Liabilities**

I carried out an actuarial valuation of the Fund as at 31 December 2019, the main purpose of which was to review the Fund's financial strength at that date. The valuation was carried out under the requirements of the Pensions Act 2004. It used various measures and covered both members' past service benefits (i.e. pensions arising from service with the Company up to the date of valuation) and future service benefits (i.e. pensions which will arise from service with the Company after the valuation date).

The following is a summary of the results and assumptions used at the valuation date.

The financial strength of the Fund, assessed using assumptions about future events agreed by the Trustee and the Company as being appropriate to meet member benefits (assuming the Fund continues as a "going concern"), was 102% in respect of past service benefits:

	2019
	£m
Liabilities*:	(2,532)
Assets:	2,571
Past service funding surplus	39
Funding level:	102%

\* under the Pensions Act 2004, these are referred to as "technical provisions"

The 31 December 2019 valuation was undertaken using a yield curve approach. Under this approach different assumptions would be used to value the benefits depending on when they are paid. For example, different assumptions are used to value a benefit payable in 5 years time compared to a benefit payable in 20 years time. Full details of the yield curves used to value the liabilities can be found in my formal report dated 26 November 2020. A high-level summary of how the key assumptions were derived is described below.

Discount rate	Fixed interest gilt curve at valuation date plus 0.25 % p.a.		
Rate of salary increases (in addition to promotional increases)	CPI inflation plus 1.0 % p.a.		
Rate of price increases - Retail Prices Index (RPI) - Consumer Prices Index (CPI)	Derived from the Bank of England implied inflation curve at valuation date.		
	RPI inflation less 0.8 % p.a.		
<ul> <li>Pension increases <ul> <li>Inflation with a cap of 5% p.a.</li> <li>Inflation with a cap of 2.5% p.a.</li> <li>discretionary</li> </ul> </li> <li>Deferred pension revaluations <ul> <li>CPI inflation capped at an average of 5% p.a.</li> <li>CPI inflation capped at an average of 2.5% p.a.</li> </ul> </li> </ul>	Derived from price inflation assumptions with allowance for caps and floors and assuming inflation volatility to be in line with the Scheme Actuary's best estimate assumption Derived from price inflation assumptions with allowance for caps		
Life expectancy - member currently aged 62 - member currently aged 42 on reaching age 62	87.8 (males), 89.8 (females) 89.4 (males), 91.5 (females)		
GMP equalisation	A reserve of 0.4% of the liabilities has been included in the technical provisions as an approximate cost of GMP equalisation		

Note: I have taken into account the agreement by the Trustee and the Company to provide annual increases to pre 1997 pensions in payment in excess of GMPs until 1 January 2024, as explained in my formal actuarial valuation report.

# Report on Actuarial Liabilities

The financial strength of the Fund assessed against the estimated cost of securing past service benefits with an insurance company was approximately 86%.

As part of the actuarial valuation as at 31 December 2019, the Trustee and Company agreed to increase the contributions the Company makes to the Fund in respect of members' future service benefits, from 1 January 2021, to 41.2% of members' Salaries for members with "60ths" benefits and 31.6% of members' Salaries for members with "80ths" benefits.

#### Expenses

A new Schedule of Contributions was signed on 26 November 2020, which sets out the contributions the Company will pay to the Fund to meet expenses. The Company paid £1.633m in 2020, £2.427m in 2021, £2.457m in 2022, and agreed to pay £2.487m in 2023, £2.490m in 2024 and £2.512m in 2025 to the Fund in order to cover the following expenses:

- Administration expenses, including actuarial, legal, audit, investment consultancy and other professional fees and any sundry expenses. Investment manager fees are not covered by this amount as they are met separately by the Fund; and
- Levies payable in respect of the Pension Protection Fund (PPF) and any other levies collected by the Pensions Regulator.

The Company will also meet the cost of contributions in respect of National Insurance savings and contributions that would otherwise have been paid by members participating in the Pension Adjustment Scheme; and any insurance company premiums required for insuring the lump sum death in service benefits.

This report relates to the Fund's financial position at the valuation date. As time moves on, the Fund's finances will fluctuate.

Full details of the valuation results are set out in my formal report dated 26 November 2020. This report should be read in conjunction with the formal report, including the statements on the purpose, scope and limitations of reliance on my advice and may only be relied upon by the Trustee.

The next formal actuarial valuation is due to be carried out at 31 December 2022.

Jonathan Wicks FIA Aon Solutions UK Limited 122 Leadenhall Street London EC3V 4AN

# Actuary's Certification of the Schedule of Contributions

Name of Fund: Reuters Pension Fund

#### Adequacy of rates of contributions

1. I certify that, in my opinion, the rates of contributions shown in this Schedule of Contributions are such that the statutory funding objective could have been expected on 31 December 2019 to continue to be met for the period for which the schedule is to be in force.

#### Adherence to statement of funding principles

2. I hereby certify that, in my opinion, this Schedule of Contributions is consistent with the Statement of Funding Principles dated 26 November 2020.

The certification of the adequacy of the rates of contributions for the purpose of securing that the statutory funding objective can be expected to be met is not a certification of their adequacy for the purpose of securing the Scheme's liabilities by the purchase of annuities, if the Scheme were wound up.

# Independent auditors' statement about contributions to the Trustee of Reuters Pension Fund

# Statement about contributions

#### Opinion

In our opinion, the contributions payable under the schedule of contributions for the fund year ended 31 December 2022 as reported in Reuters Pension Fund's summary of contributions have, in all material respects, been paid in accordance with the schedule of contributions certified by the fund actuary on 26 November 2020.

We have examined Reuters Pension Fund's summary of contributions for the fund year ended 31 December 2022 which is set out on the previous page.

#### **Basis for opinion**

Our examination involves obtaining evidence sufficient to give reasonable assurance that contributions reported in the summary of contributions have, in all material respects, been paid in accordance with the relevant requirements. This includes an examination, on a test basis, of evidence relevant to the amounts of contributions payable to the fund under the schedule of contributions, and the timing of those payments.

Responsibilities for the statement about contributions

#### Responsibilities of the Trustee in respect of contributions

As explained more fully in the statement of Trustee's responsibilities, the fund's Trustee is responsible for preparing, and from time to time reviewing and if necessary revising, a schedule of contributions and for monitoring whether contributions are made to the fund by employers in accordance with relevant requirements.

Auditors' responsibilities in respect of the statement about contributions

It is our responsibility to provide a statement about contributions and to report our opinion to you.

#### Use of this report

This report, including the opinion, has been prepared for and only for the Trustee as a body in accordance with section 41 of the Pensions Act 1995 and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

PricewaterhouseCoopers LLP Chartered Accountants and Statutory Auditors Manchester Date: 27 September 2023

# Independent auditors' report to the Trustee of Reuters Pension Fund

#### Report on the audit of the financial statements

#### Opinion

In our opinion, Reuters Pension Fund's financial statements:

- show a true and fair view of the financial transactions of the fund during the year ended 31 December 2022, and of the amount and disposition at that date of its assets and liabilities, other than liabilities to pay pensions and benefits after the end of the year;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards comprising FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland", and applicable law); and
- contain the information specified in Regulation 3A of the Occupational Pension Schemes (Requirement to obtain Audited Accounts and a Statement from the Auditor) Regulations 1996.

We have audited the financial statements, included in the Trustees' Annual Report and Financial Statements, which comprise: the Statement of Net Assets available for benefits as at 31 December 2022; the Fund Account for the year then ended; and the notes to the financial statements, which include a description of the significant accounting policies.

#### **Basis for opinion**

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities under ISAs (UK) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Independence

We remained independent of the fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, which includes the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

#### Conclusions relating to going concern

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the fund's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

In auditing the financial statements, we have concluded that the Trustee's use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

However, because not all future events or conditions can be predicted, this conclusion is not a guarantee as to the fund's ability to continue as a going concern.

Our responsibilities and the responsibilities of the Trustee with respect to going concern are described in the relevant sections of this report.

# Independent auditors' report to the Trustee of Reuters Pension Fund

#### Reporting on other information

The other information comprises all the information in the Trustees' Annual Report and Financial Statements other than the financial statements, our auditors' report thereon and our auditors' statement about contributions. The Trustee is responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

#### Responsibilities for the financial statements and the audit

#### Responsibilities of the Trustee for the financial statements

As explained more fully in the statement of Trustee's responsibilities, the Trustee is responsible for ensuring that the financial statements are prepared in accordance with the applicable framework and for being satisfied that they show a true and fair view. The Trustee is also responsible for such internal control as it determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In the preparation of the financial statements, the Trustee is responsible for assessing the fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Trustee either intends to wind up the fund, or has no realistic alternative but to do so.

#### Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud, is detailed below.

# Independent auditors' report to the Trustee of Reuters Pension Fund

Based on our understanding of the fund and its environment, we identified that the principal risks of noncompliance with laws and regulations related to the administration of the fund in accordance with the Pensions Acts 1995 and 2004 and regulations made under them, and codes of practice issued by the Pensions Regulator; and we considered the extent to which non-compliance might have a material effect on the financial statements. We also considered the direct impact of these laws and regulations on the financial statements. We evaluated incentives and opportunities for fraudulent manipulation of the financial statements, including the risk of override of controls, by the Trustee and those responsible for, or involved in, the preparation of the underlying accounting records and financial statements, and determined that the principal risks were related to posting inappropriate journals to conceal misappropriation of assets and inappropriate adjustments of asset valuations. Audit procedures performed by the engagement team included:

- Testing journal entries where we identified particular fraud risk criteria.
- Obtaining independent confirmations of material investment valuations and cash balances at the year end.
- Testing estimates and judgements made in the preparation of the financial statements for indicators of bias.
- Reviewing meeting minutes, any correspondence with the Pensions Regulator, and significant contracts and agreements.
- Holding discussions with the Trustee to identify significant or unusual transactions and known or suspected instances of fraud or non-compliance with applicable laws and regulations.
- Assessing financial statement disclosures, and agreeing these to supporting evidence, for compliance with the Pensions Acts 1995 and 2004 and regulations made under them.

There are inherent limitations in the audit procedures described above. We are less likely to become aware of instances of non-compliance with laws and regulations that are not closely related to events and transactions reflected in the financial statements. Also, the risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion.

A further description of our responsibilities for the audit of the financial statements is located on the FRC's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditors' report.

#### Use of this report

This report, including the opinion, has been prepared for and only for the Trustee as a body in accordance with section 41 of the Pensions Act 1995 and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Total net assets available for benefits	_	1,709,712	2,801,729

The financial statements summarise the transactions of the Fund and deal with the net assets available for benefits at the disposal of the Trustee. They do not take account of obligations to pay pensions and benefits which fall due after the end of the Fund year. The actuarial position of the Fund, which takes into account such obligations, is dealt with in the Report on actuarial liabilities on pages 26 and 27 of the Annual Report, and these financial statements should be read in conjunction with this report.

### The financial statements on pages 34 to 57 were approved by the Trustee and signed on its behalf by:

Catherine Redmond, BESTrustees Limited

26 September 2023

Trustee Director Geoffrey Sanderson Trustee Director Date 26 September 2023 Date

1. Identification of the financial statements

The Fund is an occupational defined benefit pension arrangement established as a trust under English Law. The Fund is closed to new members; and from 31 August 2022 will be closed to future accrual. The registered address of the Fund is Five Canada Square, Canary Wharf, London, E14 5AQ.

The Scheme is a registered pension scheme under the Chapter 2, Part 4 of the Finance Act 2004 This means that contributions by employers and employees are normally eligible for tax relief, and income and capital gains earned by the Scheme receive preferential tax treatment.

The scheme closed to future accrual on the 31 August 2022 and a deed and resolution to give effect to this change was signed on the 21 September 2022

2. Basis of preparation

The individual financial statements of Reuters Pension Fund have been prepared in accordance with the Occupational Pension Schemes (Requirement to obtain Audited Accounts and a Statement from the Auditor) Regulations 1996, Financial Reporting Standard (FRS) 102 - The Financial Reporting Standard applicable in the UK and Republic of Ireland issued by the Financial Reporting Council ("FRS 102") and the guidance set out in the Statement of Recommended Practice "Financial Reports of Pension Schemes" (revised June 2018) ("the SORP").

The Fund is registered under the Finance Act 2004. Prior to the introduction of this Act, the Fund was an "exempt approved scheme" under the terms of the Income and Corporation Taxes Act 1988.

3. Accounting policies

The significant accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

### Contributions

Employee normal contributions are accounted for when they are deducted from pay by the Employer.

Employer normal contributions that are expressed as a rate of salary are accounted for on the same basis as the employees' contributions, in accordance with the Schedule of Contributions in force during the year.

Employer contributions, expense contributions and other additional contributions are accounted for in accordance with the agreement under which they are payable, paid or, in the absence of an agreement, in the period in which they are received.

### Life assurance receipts

Life assurance receipts are accounted for on an accruals basis when they fall due.

### Transfers from and to other schemes

Transfer values represent the capital sums either receivable in respect of members from other pension schemes of previous employers or payable to other pension schemes for members who have left the Fund. They are accounted for on an accrual basis on the date the Trustee of the receiving plan accept the liability. The liability normally transfers when payment is made, unless the Trustees of the receiving plan have agreed to accept liability in advance of receiving the funds.

3. Accounting policies (continued)

### Payments to members

Benefits are accounted for on the later of the period in which the member notifies the Trustee of their decision on the type or amount of benefit to be taken, and the date of retiring or leaving. If there is no member choice, the date of retiring, leaving or notification of death is used.

Pensions in payment are accounted for in the period to which they relate.

Where the Trustee is required to settle tax liabilities on behalf of a member (such as when lifetime or annual allowances are exceeded) with a consequent reduction in that member's benefits receivable from the Fund, this is shown separately within benefits.

### Investment management, administrative and other expenses

All investment management and administrative expenses are met by the Fund and accounted for on an accruals basis, net of recoverable VAT.

Interest payable on repurchase agreement contracts is accounted for on an accruals basis.

### Investment income

Income from cash and short-term deposits is accounted for on an accruals basis.

Income from pooled investment vehicles is accounted for when declared by the fund manager. Where pooled investment managers reinvest investment income, this is treated as accumulating within the fund value.

Income from qualifying investment funds is accounted for as investment income on an accruals basis.

Receipts from annuity policies are accounted for as investment income on an accruals basis.

Income from bonds is accounted for on an accruals basis and includes income bought and sold on the purchase and sale of bonds.

3. Accounting policies (continued)

### Investments

The change in market value of investments during the year comprises all increases and decreases in the market value of investments held at any time during the year, including profits and losses realised on sales of investments during the year.

Investments are included at fair value as described below:

The Qualifying Investment Fund (QIF) is accounted for on the fair value of the underlying assets as set out for each of the asset types that are held within it.

Quoted securities in active markets are valued at the current bid prices at the reporting date.

Accrued interest is excluded from the market value of bonds and is included in invested income receivable.

Pooled investment vehicles have been valued at the latest available bid price or single price provided by the pooled investment manager. Shares in other pooled arrangements have been valued at the latest available net asset value (NAV), determined in accordance with fair value principles, provided by the pooled investment manager.

Over the counter (OTC) derivatives are valued using the following valuation techniques:

Swaps – current value of future cash flows arising from the swap determined using discounted cash flow models and market data at the reporting date.

Forward foreign exchange (Forward FX) – the gain or loss that would arise from closing out the contract at the reporting date by entering into an equal and opposite contract at that date.

Exchange traded futures are valued at the sum of the daily mark-to-market, which is a calculated difference between the settlement prices at the reporting date and the inception date.

3. Accounting policies (continued)

### **Investments (continued)**

The Trustee holds annuity policies with Friends Life and Canada Life Limited that secure the pensions payable to specified beneficiaries. These policies have been valued by Aon, the Fund Actuary. Both policies have been valued on the technical provisions assumptions agreed for the 31 December 2019 actuarial valuation, updated for market conditions at the current year end. Further details of the technical provisions' assumptions used is set out below.

The technical provisions financial assumptions use a yield curve approach to value the annuities. Under this approach different assumptions would be used to value the benefits depending on when they are paid. For example, different assumptions are used to value a benefit payable in 5 years' time compared to a benefit payable in 20 years' time.

A description of the key financial and demographic assumptions is set out below.

Technical provisions assumption	Description
Discount rate	Derived from the Bank of England UK fixed interest gilt yield curve plus 0.25 % p.a.
Retail Price Index inflation	Derived from the difference between the Bank of England UK fixed and UK index-linked gilt yield curves
Consumer Price Index inflation	RPI inflation assumption less 0.9 % p.a.
Pension increases in payment	Derived from the price inflation assumptions with allowance for appropriate caps and floors and assuming inflation volatility to be in line with the Fund Actuary's best estimate assumption
Life expectancy:	
- member currently aged 62	88.0 (males), 90.1 (females)

- member currently aged 42 on reaching age 62 89.7 (males), 91.9 (females)

The Trustee has determined that there are no other annuity policies held in the name of the Trustee.

AVC investments are included at fair value as provided by the AVC investment managers.

Amounts repayable under repurchase agreements which are still to mature at the year-end date are reflected within other investment liabilities at fair value as provided by the investment manager.

Cash includes cash and cash equivalents which are included at fair value provided by the investment manager.

### Critical accounting estimates and judgements

The Trustee makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. For the Fund, the Trustee believe the only estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amount of assets and liabilities within the next financial year are related to the valuation of the Fund investments and, in particular, those classified in Level 3 of the fair-value hierarchy. Explanation of the key assumptions underpinning the valuation of investments are included above.

3. Accounting policies (continued)

### **Presentation currency**

The Fund's functional and presentation currency is pounds sterling. Monetary items denominated in foreign currency are translated into sterling using the closing exchange rates at the Fund year end. Foreign currency transactions are translated into sterling at the spot exchange rate at the date of the transaction.

Assets and liabilities in foreign currencies are expressed in sterling at the rates of exchange ruling at the year end. Gains and losses arising on conversion or translation are dealt with as part of the change in market value of investments.

### 4. Contributions

	2022 £'000	2021 £'000
Employer contributions		
Normal	3,637	5,923
Additional – expense contributions	2,457	2,427
	6,094	8,350
Employee contributions		
Normal	54	132
	6,148	8,482

Employer normal contributions include salary sacrifice contributions made in respect of members during the year.

Under the Schedule of Contributions, the Company also agreed to pay £2.487m in 2023, £2.490m in 2024 and £2.512m in 2025 to the Fund in respect of the cost of administrative expenses.

### 5. Other income

	2022 £'000	2021 £'000
Compensation	-	3

6. Benefits paid or payable

	2022 £'000	2021 £'000
Pensions	41,895	49,854
Commutations of pensions and lump sum retirement benefits	10,795	8,131
Lump sum death benefits	281	91
Taxation where lifetime or annual allowance exceeded	557	545
	53,528	58,621

For certain Fund pensioners, based on historic pension arrangements, the members receive part of their pension funded from the Fund and part funded from the related Reuters Supplementary Pension Scheme ('SPS'); these are known as so-called 'dual pensioners'. In addition, certain pensioners receive an unfunded unapproved retirement benefit, administered through the Fund and the SPS and funded by the Employer. During the course of the year ended 31 December 2022, it has been identified that there has been errors in the misallocation of funding and accounting for the above amounts as between the Fund and the SPS, spanning a number of years. This has no impact on the amounts actually paid to pensioner members. Following a detailed reconciliation exercise, it has been determined that an adjustment of £11,570k relates to periods prior to 2022; this was included in the year 2021.

Taxation arising on benefits paid or payable is in respect of members whose benefits exceeded the lifetime or annual allowance and who elected to take lower benefits from the Fund in exchange for the Fund settling their tax liability.

7. Transfers out to other schemes

		2022 £'000	2021 £'000
	Individual transfers out to other schemes	14,349	17,413
8.	Payments to and on account of leavers		
		2022 £'000	2021 £'000
	Pension sharing on divorce	606	991

### 9. Administrative expenses

	2022 £'000	2021 £'000
Administration and processing	317	272
Actuarial fees*	957	283
Audit fees	89	71
Professional fees	748	497
PPF Levy	140	78
Trustees' fees and expenses	125	182
Levies and general expenses	49	12
	2,425	1,395

\*The increase in actuarial fees in 2022 was due to an under accrual in 2021.

### 10. Other payments

	2022 £'000	2021 £'000
Accrued interest	<u> </u>	2,246

As referenced in 2021 in notes 7 and 26, the misallocation of funding as between the Fund and the SPS has been accounted for; with cumulative accrued interest of £2,246k on the amounts due being agreed between the respective Trustee of the two plans.

### 11. Interest payable

	2022 £'000	2021 £'000
Interest payable	6,329	1,930

The Fund incurs interest at money market rates payable on monies advanced to it under repurchase agreement contracts entered into. These advances are secured on the Fund's existing bond portfolio.

### 12. Investment income

	2022 £'000	2021 £'000
Income from bonds	23,090	22,112
Income from pooled investment vehicles	10,076	4,304
Income from qualifying investment fund	-	18,789
Dividends from Equities	9,205	-
Currency gain/loss on Cash	(264)	-
Annuity income	29,288	28,863
Interest income/(expense) on cash deposits	54	(1)
	71,449	74,067

### 13. Reconciliation of net investments

	Value as at 01 January 2022	Purchases and derivative payments	Sales proceeds and derivative	Change in market value	Value as at 31 December 2022
	£'000	£'000	receipts £'000	£'000	£'000
Equities	9	6	(5)	(4)	6
Bonds	1,772,853	144,099	(152,635)	(736,462)	1,027,855
Pooled investment vehicles	781,760	983,976	(1,179,170)	(27,056)	559,510
Qualifying investment fund	560,143	205,594	(379,328)	(106,778)	279,631
Derivatives - net	50,657	2,449,769	(2,455,612)	(36,079)	8,735
Insurance policies	612,024	-	(245)	(183,975)	427,804
AVCs	3,176	-	(306)	(103)	2,767
	3,780,622	3,783,444	(4,167,301)	(1,090,457)	2,306,308
Cash & equivalents	(36,849)	-	(1)	6	36,701
Cash in transit	66				65
Accrued income	7,352				7,836
Repurchase agreements	(935,726)				(641,758)
	2,815,465			(1,090,451)	1,709,152

Cash & equivalents of £14.4m (2021; -£36.8m) comprises -£4.2m (2021: -£40.0m) relating to the variation margin in the BlackRock LDI portfolio and £18.6m (2021: £3.2m) of other positive cash balances with investment managers.

The figures above take into account the cumulative value of movements within the year.

Pooled investment vehicles are operated by companies registered in the UK, USA, Bermuda, Luxembourg and Ireland.

The qualifying investment fund (QIF) is an investment vehicle for which the Fund is the sole investor.

The movement in purchase and sales of investments in the year have been impacted by and are reflective of the strategic positioning by the Trustee of the assets and liabilities.

### **Transaction costs**

Transaction costs are included in the cost of purchases and deducted from sale proceeds. Direct transaction costs, including costs charged to the Fund such as fees, commissions and stamp duty were £nil (2021: £nil).

In addition, indirect costs are incurred through the bid-offer spread on investments within pooled investment vehicles and charges made within those vehicles. It is not possible for the Trustee to quantify such indirect transaction costs.

		8,735		50,657

In addition to government bonds, the LDI manager uses interest rate and inflation derivatives for liability matching purposes. The LDI mandate is passively managed against a liability benchmark designed to represent the Fund's liability cashflows.

The Fund is invested in overseas assets to ensure the portfolio is adequately diversified and to widen the opportunity set for actively managed investment strategies. The Trustee has implemented a currency hedging programme (using currency forward contracts) to reduce the impact of exchange rate fluctuations, which are considered an unrewarded risk over the long term.

Some of the active investment managers that are used by the Fund employ other derivative instruments (such as futures and options) to facilitate efficient portfolio management, allowing short-term exposure to certain markets.

The Trustee has authorised the use of derivative financial instruments by their investment managers as part of their investment strategy.

> 30	-	-	-	-	50	-
			12,105	(1,338)	18,845	(7,623)

Total collateral assets of £191.7m (2021: £8.2m) have been pledged in respect of the derivative positions in the Liability Driven investment portfolio. £5.2m (2021: £38.5m) have been held.

### 16. Amounts due under repurchase agreements

		2022		2021	
Repayment Date	Notional £'000	Assets £'000	Liabilities £'000	Assets £'000	Liabilities £'000
Within 3 months	9,164	9,201	-	-	(245,124)
Within 4 to 6 months	440,937	-	(444,711)	-	(443,008)
Within 7 to 9 months	204,077	-	(206,268)	-	(70,422)
Within 10 to 12 months	-	-	-	-	(177,172)
		9,201	(650,979)	-	(935,726)

At the year-end £474,187,083 (2021: £981,184,232) of bonds reported in Fund assets are held by counterparties under repurchase agreements.

### 17. Concentration of investment

The following investments represent more than 5% of the total value of the net assets of the Fund.

	2022		2021		
Investment	Market Value	Percentage of Net Assets	Market Value	Percentage of Net Assets	
investment	£'000	% %	£'000	%	
Blackrock Fixed Interest	542,152	31.7	-	-	
Blackrock Index Linked Securities	485,703	28.4	-	-	
Canada Life annuity policy	424,100	24.8	608,100	21.7	
Blackrock Money Market	322,904	18.9	-	-	
Legal & General – Qualifying investment fund	279,631	16.4	560,143	20.0	
Bridgewater Pure Alpha Sterling fund	107,106	6.3	152,135	5.4	
AQR Diversified Risk Premia Fund	-	-	134,457	4.8	

There was no stock lending during the year, apart from the limited stock lending activity carried out by Legal & General as part of the investment strategy of its pooled funds.

#### 18. Marketability of investments

In relation to the private equity mandates, whilst there are no restrictions such as lock in periods or gate provisions as such, the private equity investments with Abbott Capital and Morgan Stanley are not in realisable marketable securities. There is seldom a liquid market for the underlying securities or funds, hence the only option would be to sell these investments in the secondary private equity market, which could be punitive for the Fund. The ability to sell these investments will depend on factors such as market conditions at the time of any sale.

The AQR mandate can be redeemed on any trading day if the instruction is received no later than 17:00 (CET) 3 business days prior to the trading day. Payment of the relevant proceeds will be made as soon as reasonably practicable after the relevant dealing day and normally within 2 business days. However, please note that as at the time of writing, AQR's notice period for redemptions will move to 1 business day prior to the trading day subject to regulatory approval.

The LGIM mandate can be redeemed on any trading day. The settlement period is typically 7 business days. It should be noted that LGIM would be a price taker in this situation and that a longer disposal period would be advisable to minimise transaction costs. Under normal market conditions, the LGIM mandate can expect redemption of c.99% of funds within 30 days of instruction. Under stressed market conditions, when market liquidity severely deteriorates, redemptions would be expected to take longer.

The Nephila mandate is presently in wind-down and invested funds are being returned to RPF in tranches. It is expected that this process will be complete by April 2024

### 18. Marketability of investments (continued)

In relation to the private equity mandates, whilst there are no restrictions such as lock in periods or gate provisions as such, the private equity investments with Abbott Capital and Morgan Stanley are not in realisable marketable securities. There is seldom a liquid market for the underlying securities or funds, hence the only option would be to sell these investments in the secondary private equity market, which could be punitive for the Fund. The ability to sell these investments will depend on factors such as market conditions at the time of any sale.

The AQR mandate can be redeemed on any trading day if the instruction is received no later than 10:00am 5 business days prior to the trading day. Payment of the relevant proceeds will be made as soon as reasonably practicable after the relevant dealing day and normally within 10 business days.

The LGIM mandate can be redeemed on any trading day if the redemption instruction is received no later than 10:30am on the trade date. The settlement period is 5 business days. It should be noted that LGIM would be a price taker in this situation and that a longer disposal period would be advisable to minimise transaction costs.

The Nephila mandate can be redeemed on a quarterly basis with at least 90 days of prior notice given.

### 19. Investment management expenses

	2022 £'000	2021 £'000
Investment management fees	923	2,076
Investment consultancy fees	514	442
Irrecoverable Withholding Tax	489	-
	1,926	2,518

There were no amounts paid in respect of performance related fees.

### 20. Insurance policies

The Fund held insurance policies at the year end as follows:

	2022 £'000	2021 £'000
Utmost Life & Pensions (unit linked)	826	938
Prudential Money Purchase (with-profits)	690	647
Prudential Money Purchase (unit linked)	2,138	2,271
Canada Life Annuity Policy	424,100	608,100
Friends Life Annuity policy	50	68
	427,804	612,024

21. AVC investments

The Trustee holds assets invested separately from the main investments to secure additional benefits on a money purchase basis for those members electing to pay Additional Voluntary Contributions. Members participating in this arrangement each receive an annual statement made up to 31 December confirming the amounts held in their account and the movements in the year.

The aggregate amounts of AVC investments are as follows:

	2022 £'000	2021 £'000
Utmost (unit linked)	851	1,094
Prudential (with-profits)	690	359
Prudential (unit linked)	1,226	1,723
	2,767	3,176

### 22. Fair value heirarchy

The fair value of financial instruments has been disclosed using the following fair value hierarchy:

- Level 1 The unadjusted quoted price in an active market for identical assets or liabilities that the entity can access at the assessment date.
- Level 2 Inputs other than quoted prices included within Level 1 that are observable (i.e. developed) for the asset or liability, either directly or indirectly.
- Level 3 Inputs are unobservable (i.e. for which market data is unavailable) for the asset or liability.

### 22. Fair value determination (continued)

A fair value measurement is categorised in its entirety on the basis of the lowest level input which is significant to the fair value measurement in its entirety.

The Fund's investment assets and liabilities fall within the above hierarchy levels as follows:

As at 31 December 2022	Level 1	Level 2	Level 3	Total
	£'000	£'000	£'000	£'000
Equities	6	-	-	6
Bonds	-	1,027,855	-	1,027,855
Pooled investment vehicles	-	386,847	172,663	559,510
Qualifying investment fund	4,494	275,137	-	279,631
Derivatives – net	-	8,735	-	8,735
Insurance policies	-	2,964	424,840	427,804
AVC investments	-	851	1,916	2,767
Cash and equivalents – net	36,701	-	-	36,701
Other investment balances	7,836	-	-	7,836
Repurchase agreements	-	(641,758)	-	(641,758)
Cash in transit	65	-	-	65
	49,102	1,060,631	599,419	1,709,152

As at 31 December 2021	Level 1	Level 2	Level 3	Total
	£'000	£'000	£'000	£'000
Equities	9	-	-	9
Bonds	-	1,772,853	-	1,772,853
Pooled investment vehicles	-	426,907	354,853	781,760
Qualifying investment fund	7,143	553,000	-	560,143
Derivatives – net	-	3,923	46,734	50,657
Insurance policies	-	3,209	608,815	612,024
AVC investments	-	2,817	359	3,176
Cash and equivalents – net	(36,849)	-	-	(36,849)
Other investment balances	7,352	-	-	7,352
Repurchase agreements	-	(935,726)	-	(935,726)
Cash in transit	66	-	-	66
	(22,279)	1,826,983	1,010,761	2,815,465

### 22. Fair value determination (continued)

Pooled investment vehicles which are traded regularly are generally included in level 2. Where the absence of regular trading or the unsuitability of recent transaction prices as a proxy for fair values applies, standard valuation techniques are adopted, and the vehicles are included in level 3 as appropriate.

The value of other pooled investment vehicles which are unquoted or not actively traded on a quoted market is estimated by the Trustee. Where the value of the pooled investment vehicle is primarily driven by fair value of its underlying assets, the net asset value advised by the fund manager is normally considered a suitable approximation to fair value unless there are restrictions or other factors which prevent realisation at that value, in which case adjustments are made. No such adjustments have been made to the valuations at 31 December 2022 or 31 December 2021.

#### 23. Investment risk disclosures

FRS 102 requires the disclosure of information in relating to certain investment risks. These risks are set out by FRS 102 as follows:

- Credit risk: this is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation.
- Market risk: this comprises currency risk, interest rate risk and other price risk.
- Currency risk: this is the risk that the fair value or future cash flows of a financial asset will fluctuate because of changes in foreign exchange rates.
- Interest rate risk: this is the risk that the fair value or future cash flows of a financial asset will fluctuate because of changes in market interest rates.
- Other price risk: this is the risk that the fair value or future cash flows of a financial asset will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk).

The principal objective of the Trustee is to invest the assets of the Fund to meet its liabilities when they fall due. The Trustee wishes to protect members' accrued benefits by maintaining a reasonable prospect of achieving a 100% funding level on a prudent basis.

The Trustee maintains a diversified portfolio of assets which seeks to maintain a balance between expected investment return and volatility of returns. The Trustee also seeks to manage the Fund's exposure to interest rate and inflation risk whilst keeping expected returns at an appropriate level.

- The Trustee determines their investment strategy after taking advice from a professional investment adviser.
- The Fund has exposure to these risks because of the investments it makes in following the investment strategy as set out above.
- The Trustee manages their investment risks, including credit risk and market risk, within an agreed risk budget which is set taking into account the Fund's strategic investment objectives.
- The investment objectives and risk budget are implemented through the investment management agreements in place with the Fund's investment managers and monitored by the Trustee through regular reviews of the investment portfolio.

23. Investment risk disclosures (continued)

Further information on the Trustees' approach to risk management is set out below.

(i) Credit risk

The Fund is subject to credit risk via its holdings in corporate bonds and multi-class credit. Credit risk on the Legal & General Buy and Maintain holdings is direct as the underlying bonds are held in a segregated account. Credit risk on the other relevant mandates is indirect through holdings in pooled vehicles. Credit risk on the underlying holdings is managed by the relevant asset managers through both in-house credit assessments and review of external credit rating reports.

Counterparty credit risk arising from pooled investment vehicles is mitigated by the underlying assets of the pooled arrangements being ring-fenced from the pooled manager, the regulatory environments in which the pooled managers operate and diversification of investments amongst a number of pooled arrangements. The Trustee carries out due diligence checks on the appointment of new pooled investment managers and on an ongoing basis monitor any changes to the operating environment of the pooled manager.

A summary of pooled investment vehicles by type of arrangement is as follows:

	2022 £'000	2021 £'000
Limited partnership Open ended investment companies	15,600 538,300	19,400 755,500
Cayman Islands exempted limited partnerships	4,100	5,500
Cayman Islands exempted private investment funds	1,600	1,400
	559,600	781,800

Counterparty credit risk also arises from entering into derivative contracts as part of the LDI hedging programme. This is mitigated by daily collateralisation, by diversifying exposure across a number of counterparties and by the LDI manager's ongoing assessment of the creditworthiness of each counterparty.

### (ii) Currency risk

The Fund is subject to both direct and indirect currency risk because some of the Fund's segregated and pooled investment vehicles respectively invest in overseas markets or are denominated in foreign currencies. This exposure specifically arises from exposure to Overseas Corporate Bonds, Insurance-Linked Securities ("ILS"), Global Equities and Private Equity. The Fund has in place a currency hedging mandate with BlackRock which hedges 100% of exposure to US Dollars arising from the Corporate Bonds, Global Equity and ILS allocations respectively. Currency exposure on the private equity mandates is unhedged. Some managers may take active currency positions as a permitted part of their wider mandates.

(iii) Interest rate risk

The Fund is subject to interest rate risk because some of its investments are held in bonds, interest rate swaps and derivatives which are sensitive to interest rates. These investments are used to hedge interest rate risk arising from the Fund's liabilities. The Trustee targets a hedge ratio equal to the funding ratio on a Gilts Flat basis. Accordingly, if interest rates fall (rise), the value of assets will rise proportional to the increase (decrease) in the present value of the liabilities. The target hedge ratio of the Fund was 101% as at 31 December 2022 (equal to the funding ratio).

- 23. Investment risk disclosures (continued)
- (iv) Other price risk

Other price risk arises in relation to the Fund's return-seeking which are permitted to invest in a range of alternative investment securities, these include; commodities, property, insurance contracts and private equity. The Trustee manages this exposure by investing in funds that invest in a diverse portfolio of instruments across various markets.

**Risk Disclosure (Value of Investments)** 

	2022 (£m)	<b>2021</b> (£m)
Credit risk	334.4	789.5
Currency risk	99.3	627.3
Interest rate risk	1,311.9	2,343.9
Other price risk	180.3	412.2

Source: Redington. Please note that the sum of each column is greater than total Fund assets due to some assets having exposure to more than one risk. Total interest rate risk exceeded total asset value due to levered gilt funds in the LDI portfolio.

The following table summarises the extent to which the various classes of investments are affected by financial risks:

Investment Assets	Credit risk	Currency risk	Interest rate risk	Other price risk	2022 Market Value £'000	2021 Market Value £'000
Bonds	0	Ð	•	0	1,027,855	1,772,853
Pooled investment vehicles	O	O	O	•	559,616	781,760
Qualifying investment fund	O	Ð	Ð	•	279,631	560,143
Derivatives - net	0	O	O	0	8,735	50,657
Other insured assets	0	0	0	0	427,804	612,024
AVC investments	0	Ð	•	•	2,767	3,176
Cash and equivalents	0	0	Ð	0	36,701	(36,849)
Other investment balances	0	0	0	0	7,836	7,352

In the above table, the risk noted affects the asset class [•] significantly, [•] partially or [o] hardly/not at all. Source: Redington.

### 24. Current assets

	2022 £'000	2021 £'000
Cash balances	5,749	5,115
Amounts to/from Refinitiv Limited	90	336
	5,839	5,451

25. Current liabilities

	2022 £'000	2021 £'000
Unpaid benefits	1,901	499
Accrued expenses	2,683	2,820
VAT payable	-	56
Tax due to HMRC	557	470
Tax on annual allowance	138	259
Amounts due to Reuters Supplementary Pension Scheme	-	15,083
	5,279	19,187

The amounts due to the Reuters Supplementary Pension Scheme in 2021 represent the total impact of the misallocation of funding referred to in note 10. These amounts were agreed between the respective trustee of the two pension schemes in an agreement dated 13 July 2022, with payment made on 3 August 2022.

### 26. Employer-related investments

There were no directly or indirectly held employer-related investments at the year-end (2021: none).

### 27. Related party transactions

### Key management personnel of the Fund

During the year the Fund did not receive contributions in respect of any (2021: Nil) Trustee of the Fund, and paid pensions in respect of 3 (2021: 3) Trustee of the Fund. Benefits were paid in accordance with the Fund's Rules.

The Fund pays a fee and expenses to the Chairman of the Trustees and fees to certain other Trustee directors relating to the exercise of their duties. In 2022 these fees and expenses amounted to  $\pounds 124,522$  (2021:  $\pounds 182,254$ ) (see note 9).

### Entities with control, joint control or significant influence over the Fund

Certain Fund expenses are initially paid by the Sponsoring Employer which are then reimbursed by the Fund. Therefore, at the year end there may be amounts owing to the Sponsoring Employer from the Fund. The amount due to be paid to the Sponsoring Employer in respect of fees and expenses for 2022 and included within note 25 is £640,710 (2021: £812,406), with the exception ITS (fixed) fees are not invoiced to the Fund but paid directly by the Company.

The Trustee is in receipt of a guarantee dated 28 January 2021, signed by members of the Sponsoring Employer's group, whereby the financial obligations of the Fund's Sponsoring Employer have been guaranteed up to a maximum value of £700m.

Except as disclosed in the financial statements there are no transactions, balances or relationships that require disclosure under FRS 102.

As at the year end £56,102 was due from the Sponsoring Employer in relation to the reimbursement of the benefit payments.

### 28. Contingent liabilities and contractual commitments

In October 2018, the High Court ruled that pension schemes are required to equalise benefits between men and women for the effect of Guaranteed Minimum Pensions (GMP) which were accrued on or after 17 May 1990.

The High Court has since, in November 2020 determined that the trustee owed a duty to a transferring member to make a transfer payment which reflected the member's right to equalised benefits. Where the initial transfer payment was inadequate on this basis the trustee is under an obligation to make a top-up payment to the receiving scheme on behalf of the transferred member.

The Trustee is reviewing, with their advisers and the Sponsoring Employer the implication of these rulings in the context of the Fund rules and the value of any liability. On completion of the review the Trustee will put together a plan for correcting past benefits as well as inequalities in benefits coming into payment.

Other than the above, in the opinion of the Trustee, the Fund had no contingent liabilities as at 31 December 2022 (2021: none).

The Fund has commitments in respect of Private Equity. The capital committed for Private Equities was \$50m each to Morgan Stanley and Abbott Capital. As at 31 December 2022, Abbott Capital had drawn down \$49.8m (2021: \$49.8m) and Morgan Stanley had drawn down \$49.8m (2021: \$49.8M). Note that both managers have begun distributing proceeds from the underlying investments to the Fund and therefore the capital balance invested with each is lower than the amount drawn down.

29. Recent Events

Recent geopolitical events (such as Russia's war in Ukraine) and economic issues, have had a profound effect on domestic and global economies, with disruption and volatility in the financial markets. The Trustee, in conjunction with their advisers, monitor the situation closely and determines any actions that are considered to be necessary. This includes monitoring the Fund's investment portfolio, the operational impact on the Fund and the covenant of the Employer. The extent of the impact on the Fund's investment portfolio, including financial performance, will depend on future developments in financial markets and the overall economy, all of which are uncertain and cannot be predicted.
